

Our team is growing!

Are you looking for autonomy in your job while working with the support of a multidisciplinary team? Do you want to grow your skills as a practitioner to make a difference for people and help them achieve their health and performance goals?

We are looking for:

Highly motivated and independent individuals with a strong work ethic, are personable and who are able and eager to work collaboratively within a multidisciplinary team.

Prospective candidates include:

- Physiotherapists,
- Chiropractors
- Massage Therapists
- Assets:
 - McMaster Contemporary Acupuncture Program training
 - Practitioners who adopt a neurofunctional approach to assessment and treatment
 - Strong knowledge in exercise prescription
 - Individuals who are goal oriented and value being part of a team that supports each other in achieving their goals.

New grads are encouraged to apply!

Instil Physio offers a special setting as we are located in a strength and conditioning facility and work in collaboration with strength coaches to treat youth, amateur and professional athletes.

Growth and advancement as a practitioner within Instil Physio is based on skill, experience, continuing education, and contribution to the team.

As a new practitioner with Instil Physio you are eligible to participate in our mentorship program that is designed to help you develop your neurofunctional assessment and treatment skills, clinical reasoning and neuroanatomy knowledge. This program is run by instructors of the McMaster Contemporary Acupuncture Program onsite at Instil Physio.

If this sounds appealing to you, reach out to us today!

Independent contractor and employee options available.

For more details and to apply please contact Micaela at micaela@instilphysio.ca, 519-840-0784 x2. Please send your resume if interested in applying.
